Ángel Casas Pescador

Hello, my name is Angel and I am currently working on improving my knowledge about Machine Learning and Deep Learning as well as embarking on a journey of discovery about the Bitcoin technology, with particular attention to its uses as programmable money, something which makes this blog an informative and pedagogical experience.To achieve this I have been enrolled in some specific Online Courses, related to the field of Artificial Intelligence and programming in general.This has lead me to achieve some level of competence on this field of knowledge which I only wish to expand as I go on.Being highly curious from an early age I have naturally expanded my interests into many other fields, this allows me to progressively achieve an articulated view of Computer Science.

Achievements:

- Deep Learning Nanodegree Foundation - **Udacity Nanodegree Foundation Program**

- Deep Learning - **Coursera Stanford University**

- Neural Networks and Deep Learning - **Coursera Stanford University**

- Improving Deep Neural Networks - **Coursera Stanford University**

- Structuring Machine Learning Projects - **Coursera Stanford University**

- Convolutional Neural Networks - **Coursera Stanford University**

- Sequence Models - **Coursera Stanford University**

- Machine Learning - **Coursera Stanford University**

- Introduction to Computer Science and Programming using Python - **EDX 6.00.1x MITx**

- Front-End Web Developer Certificate - **EDX World Wide Web Consortium (W3C)**

- HTML5 and CSS fundamentals - **EDX W3Cx**

- CSS Basics - **EDX W3Cx**

- HTML5 Apps and Games - **EDX W3Cx**

- HTML5 Coding Essentials and Best Practices - **EDX W3Cx**

- Javascript Introduction - **EDX W3Cx**
